First Day's Races of the Southern California Association.

[Copyright, 1888, by the California Associated Press.]

SAN DIEGO, October 23d.—This was the opening day of the Southern California Breeders' Association at Pacific Beach Driving Park. The day was beautiful, and the track in excellent condition. A good attendance filled the grand stand, and much interest was manifested in the races.

There were four events on the programme. The first was a half-mile dash for two-year-olds. Odette, the favorite, won, Four Aces second, Fandango third.

The second was a half-mile dash for all ages. Tila Ferguson won, Johnny Grey second, Sleepy Dick (the favorite) third.

The third race was a mile dash, for all ages. Mikado won in a close race, Jack Brady second, John Treat third.

The fourth event was a trotting race, best three in five, mile heats. Only two heats were trotted, owing to darkness coming on. Altonet won both, Pope Leo coming in both times a good second, Phœnix third. The race will be concluded to-morrow.

A LIVELY CAMPAIGN.

"Old Sonoma" Gives the Tammany Orator a Handsome Reception.

[Copyright, 1888, by the California Associated Press.]

SANTA ROSA, October 23d.—The largest demonstration of the campaign took place here to-day, the occasion being a reception tendered to Thomas F. Grady, of New York, under the auspices of Democratic clubs. Excursion trains came from all parts of the county, bringing fully 3,000 strangers. Some 1,500 men were in line, on horseback and on foot. The novelty of the occasion was a party of boys attired in suits made of bandanas. Along the line of march many houses were decorated and illuminated, and several bands were in line. Grady spoke to a full house at the Athenæum.

A BLUE-BLOOD CANDIDATE.

LOS GATOS, October 23d.—Frank M. Stone, the nominee of the American party for Congress, addressed a fair-sized audience here last night. His remarks made but little impression.

IN CALAVERAS.

ACAMPO, October 23d.—An enthusiastic Republican meeting was held here to-night. There was music by the Lodi and Lockeford Cornet Bands, and able speeches by various candidates.

POLITICS VS. JUSTICE.

Sheriff Inlow of Yuba Yields to the Dictates of Bill English.

[Copyright, 1888, by the California Associated Press.]

MARYSVILLE, October 23d.—Sheriff Inlow has furnished the following card for publication: "Believing that I was defrauded out of the nomination for Sheriff by the late Democratic County Convention, I announce myself as an Independent candidate for that office, and, knowing myself to be as much attached to the principles of Democracy as anyone, I agreed to abide by the decision of the Chairman of the Democratic State Central Committee as to the legality of Mr. Waddell's nomination. Mr. English having decided such nomination to be proper, I must—although still believing Mr. Waddell's nomination to be fraudulent—withdraw my candidacy."

AT THE BAY.

Run Over and Killed—Murderous Attack on a Chinaman.

SAN FRANCISCO, October 23d.—[Special.]—Wm. Cotter was run over by a truck this afternoon and died this evening from the effects of his injuries.

A Chinaman, claiming to be a servant in a white family, but unable to give the name of his employer, while walking through an alley in Chinatown this evening was shot twice from behind. His wounds are fatal. He said he did not know who shot him, nor of any reason for the attack. It is probably the outcome of another highbinders' trouble.

The Non-Partisan Municipal Convention completed its labors to-night and nominated Pond for Mayor.

AN OLD SINNER.

Detected in the Act of Committing Arson, a Man Suicides.

[Copyright, 1888, by the California Associated Press.]

SALINAS CITY, October 16th.—John Nutz, a German, 55 years old, died this afternoon from laudanum. He was detected in setting fire to the Capital Hotel and adjoining livery stable, but was discovered in time to prevent a fire that might have consumed a quarter of the town. As soon as locked up he took the contents of two bottles of laudanum, but was discovered too late to be saved. He was considered a crank for some time, with a very bad record.

BAD FIRES.

A Church Burned at St. Helena, and a Hotel at Newhall.

ST. HELENA, October 23d.—The Catholic church and the college building adjoining, were destroyed by fire last night. Mission services had been held in the church during the evening, and the fire probably originated from the lights being improperly put out. The college was completed about one year ago, but had never been opened to scholars. The loss is estimated at $10,000; insured for $5,500 in the Germania of New York and the State Investment of California.

LOSS OF A FINE HOTEL.

SAN FERNANDO, October 23d.—The Southern Hotel at Newhall was burned to the ground this morning. The loss is about $30,000. The fire was caused by a defective flue.

THE SEQUEL.

Arrest of a Score of the Rio Grande City Terrors.

RIO GRANDE CITY (Tex.), October 23d.—The recent threatened rise of the Mexican element, which caused so much anxiety and lead to the sending of State Rangers and several Sheriffs of neighboring counties with large posses, has resolved itself into the arrest of twenty-one of the turbulent crowd that virtually held the town. They were arrested by the rangers on a charge of conspiracy with intent to murder, and were brought up for examination and bailed in the sum of $500 to $5,000 to appear at the next sitting of the District Court.

Editor Garcia, who was shot by Customs Inspector Sebill in the difficulty which was the occasion of the trouble, is believed to be near death's door.

DAKOTA.

Would-be Train-Wreckers and Robbers Held to Answer.

[Copyright, 1888, by the California Associated Press.]

DEADWOOD, October 23d.—The preliminary examination of Nickerson, John Tilford and John Young for conspiracy to wreck and rob a pay train on the Homestake Railroad, terminated to-day by the attorney for the defendants waiving further examination. Nickerson and Young were held in $5,000 bail, and Tilford, as accessory before the fact, in $300. The evidence is strong against them. Superintendent T. J. Gryer, of the Homestake Company, has offered $1,000 reward for Dougherty, the escaped bandit, dead or alive.

NEVADA.

A Miner Terribly Injured by the Explosion of Giant Caps.

PORTLAND, October 23d.—A man known as "Dave," employed in Jacobs Bros.' second-hand store in this city as a stove-polisher, stole $600 from the safe in the store this morning and fled for parts unknown. No clue as to his whereabouts had been discovered up to a late hour this evening.

A man named Newman, employed in the construction of a bridge across the Willamette river at Oregon City, fell a distance of eighty feet this afternoon, sustaining injuries from which he died in two hours.

The Cliff House at Oregon City was damaged by fire to the extent of $5,000 this evening. Insurance unknown.

UNMERCIFUL BLAINE.

He Mops the Political Floor With Bayard and Dave Hill.

ROCHESTER (N. Y.), October 23d.—Hon. James G. Blaine spoke here to-night. He said in part:

Mr. Chairman: I beg to bring to your attention, and to the notice of this audience, a statement made by Mr. Bayard in a speech two weeks ago. I quote his exact words. He said: "I want you to think of the progress of the United States since these tariff laws were made, and what the consequences are. Various inventions have come into play since that tariff reached its present proportions. Here are some figures I believe to be reliable. They come from high authority—Edward Atkinson, of Massachusetts, who is our leading statistician and an upright and honorable man. From 1870 to 1887 the population of the United States increased 55 per cent., but in the same time the dairy products of the country—cheese, butter and milk, and all that is created by dairies—increased 75 per cent. In these 17 years the products of cotton increased 112 per cent.; the consumption of wool increased 100 per cent.; the production of pig iron increased 285 per cent.; the construction of railways since increased 223 per cent. What has been the result of all this? The population increasing in so small proportion to all these vast forces which are needful to men's use proves to you that the country is making more than the people of the country need or can consume.'

IN REPLY TO MR. BAYARD,

My first remark is that it is a great deal better that the people have more than they can consume than to have less than they can consume. Mr. Bayard seems to think it an evil omen if the wealth of the country increases more rapidly than its population. I do not, I confess, quite comprehend Mr. Bayard's drift, for my own understanding has been that, according to the simple rules of political economy, where a nation is increasing in population more rapidly than in property, there must soon be suffering; but where the acquisition of property outruns the nation's increase of population it means

THAT THE NATION IS GROWING POWERFUL,

Wealthy and great. As Mr. Bayard has indorsed Mr. Atkinson as a statistician and economist, I beg to leave Mr. Atkinson's figures, and to tell Mr. Bayard where a large proportion of the increase of wealth in the United States has gone under the protective tariff. Mr. Atkinson stated in July last, that since 1865 the wages of foremen, overseers and other specially skilled workmen have advanced 18 per cent.; that the wages of the average mechanics, carpenters, machinists and the like have had an advance of 90 per cent.; that factory operatives and others of like grades of skill in the mechanical arts have advanced 78 per cent., and the wages of common laborers 60 per cent. You will please observe that these are not advances over the wage rates of some foreign country, but over the wages paid in our own country a quarter of a century ago, and that these advances flow directly from the protective tariff. Mr. Bayard will see, then, that from the authority he indorses this large increase of wealth has not gone merely to enrich men already wealthy, but has gone a larger degree than was ever heretofore known in the history of this or any other country

INTO THE POCKETS OF THE WORKINGMEN.

If I had been searching for witnesses by whom the value of the tariff to the workingmen of the country could be established beyond a doubt, I could have summoned Mr. Bayard and Mr. Atkinson to the stand.

Mr. Bayard further gives the public warning that if we do not take care we will produce in this country as much in seven months as we shall need in twelve months. Well, that is the last thing that should alarm the American people. That fact shows, above all other things, our power to shorten the hours of labor.

And now let me turn to another topic. While I was in Indiana I had the pleasure—I had the honor of frequent notices on the stump from his Excellency, David B. Hill. The principal subject he appeared to have come west to lay before the people of Indiana was that I had driven on Mr. Carnegie's coach when in Scotland; that I had returned home on an English steamer, and had imported thirty-three trunks "all full of clothing," as his Excellency averred. If he had taken the pains to inquire of Mr. Carnegie, he might have learned the cost of his coach and the color of his horses, and been thus better prepared for his Indiana campaign. If he had asked me about the trunks, I would freely have given him a list of all the pocket handkerchiefs, stockings and cravats I had imported, and would gladly have informed his Excellency—by way of giving him an object-lesson on the tariff—that articles of that kind are about the same price in London as in New York. As I have no doubt he desires to do me exact justice, I would have further informed his Excellency that he mistook the character of the steamer I returned in, inasmuch as she belongs to a company of American stockholders, and I would have further informed him that he overstated the number of trunks, which was in all 22, instead of 33; that these trunks belonged to six persons, instead of all belonging to me, and that the other packages were made up of steamer rugs, steamer chairs, umbrella covers and hat boxes and one case, I think, containing photographs. Among these photographs were several views of

THE ENGLISH ASS,

Which I had brought with me for an agricultural friend for the purpose of comparison with the American species. I would have cheerfully given the Governor a set if I had known he was so curious about my affairs, so that upon his next tour among the country fairs he might have exhibited a specimen and illustrate how admirably the English ass and the American ass drive in pairs.

I was thoroughly impressed, during the Governor's tour in Indiana, with his lofty appreciation of the national issues and of the valuable aid he must be rendering the cause of President Cleveland. He does not grovel in the dust, nor spend his time in petty and pitiful personalities, but takes a large and comprehensive view of public affairs so as to embrace the sideways amusements of the Republican who goes abroad and also an inventory of his baggage when he returns home. He sees in such matters material to form a discussion on the great questions connected with our foreign relations, our tariff and revenue systems. In Indiana, however, where people speak with great plainness, they did not take the same view of matters that I did, but they declared, with Western directness and impressive bluntness, that his speeches there were

"JUST ABOUT THE GOVERNOR'S SIZE,"

If you know what that means. When speaking to his own people in New York the Governor rises to the dignity of different themes and great moral questions, such as the liberty of the saloon and the blessing to a free people of a universal diffusion of whisky. Or he may still in ther enlarge his theme to maintaining the spirit of liberty that belonged to the American people ever since the declaration of independence—a spirit that permits great freedom in handling other people's ballots at elections—one which must not be curbed by stringent statutes, enacted by meddling Republicans, and will not be so long as the Governor possesses the veto power. For you cannot fail to see that the veto power is the Governor's strong point. He is running a race with President Cleveland on the veto power. His opportunities are not so frequent as the President's on the larger stage of national affairs, but the Governor manages to improve his opportunities wonderfully. When I was in the West President Cleveland's record was 310 vetoes up to that time, but while I was coming from Chicago to Buffalo he added, I believe seventeen more to his list, and the returns may not be all in. If the New York Legislature were in session the Governor might have an opportunity for rivalry, but he is compelled, with chagrin, to give up the race and leave the President the victor—not only over the Governor of New York, but over all his predecessors in the Presidential chair for the last century.

The Democracy's Free Trade Sized Up.

Howard Briggs, for twenty-five years editor of the Putnam County *Democrat*, one of the leading party papers of the State, and himself heretofore one of the leading members of the Democratic party, is out with his paper working most effectively for Harrison and Morton. In a recent speech before a crowded audience Mr. Briggs said among other things:

"The New York *Sun*, which supports President Cleveland, and which ought to be accepted as high Democratic authority, has lately indulged in an open confession, which is said to be 'good for the soul.' It says, 'the Democratic party is not a free trade party; it is not a protection party; it is simply the Democratic party.' [Laughter.] The declaration is as true as the definition is lucid. It reminds me of the Kentuckian who managed to maintain a position of strict neutrality during the war by declaring that he wasn't a Union man, and he wasn't a Confederate—he was just nothin', and d—d little of that.' [Tumultuous applause.] Therein is the weakness of the Democratic position on this question. It is masquerading either as a protection or free trade party, or else, like the Kentuckian, 'it is just nothing, and d—d little of that.'" [Renewed and long continued applause.]

The baseball batter will soon give way to the buckwheat batter.—*Pittsburg (Pa.) Chronicle.*

HOME AFFAIRS.

The Close Struggle in Indiana—Terrible Suffering in Dakota—Political Outlook in New York.

[SPECIAL DISPATCHES TO THE RECORD-UNION.]

SUFFERING DAKOTANS.

Sad Condition of Polish Immigrants in the Far West.

MINNEAPOLIS, October 23d.—J. Harpman, who has just returned from another visit to Ramsey county, Dakota, says of the Polish Jew sufferers there: The settlement is eighteen miles from Devil's Lake, and comprises seventy families, numbering 238 souls. They came here two years ago last spring, procured land, built houses and went to work to clear the land and become independent farmers. Those without money mortgaged their land and borrowed enough to pay the Government price.

They raised a fair crop the first year, and the prospects were so bright that they mortgaged their lands and other property to purchase stock and farm machinery. The second year they planted a much larger acreage. The notes and mortgages signed by them bore exorbitant interest.

About the middle of August a severe frost came and ruined the entire wheat crop, leaving them only about as many potatoes as they used for planting, and barely enough oats to winter their stock. Trouble and suffering began at once. Merchants who heretofore had been anxious to supply all their wants, refused to credit them any more. Nearly every creditor became alarmed and foreclosed. The situation became so bad that the Sheriff refused to inflict further suffering on the people by taking their property.

IN SAD DISTRESS.

He found them without fuel or bread, they using the droppings of cattle for fuel to cook such few articles as they could get. Men, women and children were in rags and without food. We found everything as the Sheriff had stated. For the present their most pressing needs are fuel and bread, and these articles must be had at once. Every day is one of suffering and privation.

Went to about twenty houses and found them, with but two exceptions, without a stick of wood or any other material for a fire except cattle-droppings.

On Saturday the ice was three-fourths of an inch thick, and we found numerous little children with bare feet and legs.

One woman with two little girls with bare limbs and feet was trying to keep warm on the sunny side of the house. Some creditor had taken her cow and left her to starve with her little ones.

NEARLY HALF A MILLION.

Cleveland's Democratic Treasurer Steals a Load of Money.

[Copyright, 1888, by the California Associated Press.]

CLEVELAND, October 23d.—Thomas Axworthy, City Treasurer, has defaulted and fled to Canada. The amount of his defalcation is supposed to be about $400,000. He had been Treasurer eight years, and stood high in business and social circles. The cause of the defalcation is believed to have been that he was caught in "Old Hutch's" wheat deal. He was a Democrat.

HOW THE CASE LOOKS.

CLEVELAND, October 23d.—Late this afternoon it was announced that of $875,887 64 turned over to Treasurer Axworthy, and by him deposited in bank, only $447,450 05 remained on deposit. The shortage, therefore, amounts to $429,437 59. The police pension fund and firemen's relief fund, which were unsecured by bond, are gone, and over $92,000 of the Board of Education fund goes into the shortage. This last item is secured by a separate bond of $250,000, with Helas Chamberlain and T. P. Handy as sureties.

It is believed that Axworthy's vessel property and real estate will inventory nearly half a million, and his bondsmen are secured. The city will probably lose nothing, as the bonds are good.

No trace of the missing man has been secured. It is asserted that he is in Liverpool, Eng., on his way to Belgium, and that he is well provided with ready money.

It is rumored, but the rumor has not been confirmed, that Axworthy lost heavily in the recent wheat squeeze, and that he was in the Gogebic iron crash for a large sum. The Council met to-night to take action in the premises. It was decided to declare the office of Treasurer vacant, and to appoint a temporary Treasurer.

AT THE BOTTOM.

A New York Ferryboat Runs Down and Sinks a Steamer.

NEW YORK, October 23d.—The steamer Atlas, of the Atlas line, bound for Port Lemon, having left that port on the 23d inst., was sunk this evening off Vesey street. The steamer was struck on the starboard by the ferryboat Central, and ten minutes later the Atlas sunk. The ferryboat struck the steamer on the bow.

The only thing to be seen of the sunken vessel are the topmasts and funnels. The Atlas was coming up the river at low speed. There was a fog at the time. The steamer was about five hundred yards out from the dock. The bow of the Central crushed into the Atlas and bent the iron plates like so many pieces of board.

For a second or two the Atlas trembled and listed, and then began to sink, bow first, so that soon the propeller was out of the water. When the collision occurred all hands on board the Atlas were ordered on deck. The engineer obeyed the summons without stopping the engine, so that the propeller whirled around and around in the air.

In this position the steamer remained for about five minutes. The vessel then plunged forward and went down, apparently settling on an even keel.

As the steamer began to sink the crew and all hands took to the rigging. Just at this juncture tug boats steamed alongside and took off all on board.

"THEY'RE ALL RIGHT."

Indiana Ladies Show Their Interest in General Harrison's Success.

INDIANAPOLIS, October 23d.—Despite the disagreeable weather, sixty ladies from Terre Haute called upon General and Mrs. Harrison. Each lady wore one or more handsome campaign badge, and displayed the national colors either in the guise of a dainty handkerchief carried in the hand or a little silk flag pinned on the shoulder. Their visit was entirely informal, and no speeches were indulged in on either side. Each fair visitor was introduced and conversed with General Harrison, and Mrs. Harrison accompanied them through the parlors and related for their edification the history of several antique pictures and curious relics of the campaign of 1840, presented to the General since his nomination, with which the rooms abound.

THE WORKERS AROUSED.

Blaine Confident the Republicans Will Win the Fight.

[Copyright, 1888, by the California Associated Press.]

BUFFALO, October 23d.—Blaine started for Rochester this morning on a special train. He said before leaving: "I have been through a part of the West and feel confident of Republican victory. In eleven counties of Indiana I was assured of large Republican gains. I noticed one thing—there were unusually large numbers of workingmen in the places where I spoke and they appeared in earnest and understood the nature of the campaign was the battle of the American workingmen."

MORE BACKING.

The American Party Committee Indorses Mayor Hewitt

[Copyright, 1888, by the California Associated Press.]

NEW YORK, October 23d.—The Committee of the American party has passed a resolution commending Mr. Hewitt's defense of the American flag, his manly independence of party dictation, and his sturdy demeanor for reform in the naturalization laws, and nominated him as the American party's candidate for Mayor of New York.

GERMAN DEMOCRATS INDORSE HEWITT.

NEW YORK, October 23d.—The United German Democracy has indorsed Mayor Hewitt.

LITIGIOUS HEIRS.

Tilden's Will Contest Likely to Remain Long Unsettled.

[Copyright, 1888, by the California Associated Press.]

NEW YORK, October 23d.—The Tilden will contest is to be continued, the heirs intending to ask all the upper Courts to overthrow the will and appeal to the General Term of the Supreme Court. It may be decided by January next. If the decision is adverse, the heirs will go to the Court of Appeals, where the decision will be probably delayed two years.

AND YET ANOTHER.

A Pennsylvania Town Official Short About Twenty Thousand.

PHILADELPHIA, October 23d.—A special from Norristown says: The protracted and unexplained absence of J. Robert Rambo, ex-Register of Wills, of this county, seems to substantiate the rumors that he is short in his accounts. The State authorities at Harrisburg place the amount of his defalcation at about $20,000.

DEMOCRATIC TRICKS,

Only Fraud Can Defeat the Republicans in New York.

WASHINGTON, October 23d.—From New York and Indiana letters have been received written by men influentially connected with the management of the Republican campaign in those States, which announce that Harrison and Morton can be defeated only by fraud, and that every effort is being made to prevent it. Chairman Quay says that if fraud is practiced he will fill the prisons with Democrats on election day until their feet stick out of the windows. Over $200,000 will be expended by the Republicans to prevent fraud in the city of New York alone.

Detectives have been stationed all along the southern border of Indiana to keep out Democratic repeaters.

The Democrats here concede that the Republicans will come down to New York with 70,000 plurality, but say that it will be overcome. The Republicans say that it cannot be overcome except by fraud. Blaine went into the city with 62,000, and came within 1,100 of election.

Senator Quay's explanation of what the Republican National Committee has done to check fraudulent registration and voting in this city was a veritable bomb for the Democrats. A political trick equal in baseness to any that campaign managers have ever attempted has also been exposed. An attempt was being made to bring into New York a number of political "heelers," who were to register and be arrested, and at the trials have it proved that they are Republicans. This will not be attempted, in all probability.

A few hundred dollars have been put into the hands of a number of Democratic "heelers," and they have been instructed to hang around hotels where politicians meet in the evening and offer to bet that Illinois, Michigan and California will go Democratic. One of the men to whom the duty was intrusted used a considerable part of the money in getting himself and a lot of other slovenly-looking fellows wildly hilarious, and they marched up and down the corridor of the Hoffman House last night followed by a drunken and noisy crowd offering to give odds on these States in sums ranging from $1,000 to $12,000. This offer was not made twice before it was quickly taken up, and the man who made it, on searching through his pockets found that he had less than $3 left with which to bet.

IN HOOSIERDOM.

A Close Struggle in Indiana—Both Parties Confident.

INDIANAPOLIS, October 23d.—The drift of the betting has usually foreshadowed the result in Indiana, but it is remarkable that there is very little, even at this late stage of the canvas. It is explained that the timidity is caused largely by the refusal of the Chairman of both committees to give satisfactory inside information. Both are certain that their respective sides will win, but they volunteer no advice on betting.

Lee Sinclair, of Washington county, has been bluffing the Democracy of Salem with $2,000 on Harrison for a week. Yesterday Democrats here heard of it, and promptly covered the bet. The money of both parties was sent to a Chicago bank.

The only election poolroom in this city is Herb Green's, and he states that thus far there has been very little betting, but it is expected that there will be considerable after this week.

Wagers varying in sums of from $10 to $100 are offered on the proposition that Harrison will not receive 500 majority in Marion county. Professional betting men are taking all the bets on Cleveland that they can get, but they think Harrison will carry Indiana.

A Republican who has bet $3,000 on Harrison's election and expresses a willingness to put up as much more, was asked why the pool-room propositions were not accepted. "Republicans do not go about pool-rooms," was his answer. He further said the sum of $1,000 was received a few days ago from New York for a wager on Harrison's election, and he knew of a gentleman, a prominent Indianapolis manufacturer, who was willing to bet $20,000 that the Republican candidate would be victorious.

Senator Turpie re-entered the canvass yesterday at Rushville. Voorhees spoke at Lafayette. Both were driven indoors by the rain, but both had crowded houses.

MORMON WOMEN.

A Sensational Story Told About the Condition of Mormon Women.

NEW YORK, October 23d.—This was the last day of the Convention of the Woman's Christian Temperance Union. The first session was chiefly devoted to the reports of the organizers. Mrs. Mary B. Poesee spoke of the temperance cause among the Indians of the Territories.

The feature of the day, among the speeches, was the address by Mrs. Angie F. Newman, who has charge of the work among Mormon women. Her graphic description of the shocking condition of Mormon women in Utah elicited horrified exclamations from all parts of the house. She told of two sisters, Mormon girls, one 16 years old and the other 14 years old, whom she saw in a squalid condition, both with babies in their arms, and both girls wives of their own father.

Another case mentioned was that of a man who married—besides a wife outside his family—his own mother, his grandmother, his daughter, and his granddaughter. All these wives were living at the same time.

Mrs. Mary B. Reese, of Washington Territory, told her experiences in organizing unions in Indian Territory. She declared there was less need of unions in that Territory than in most other places. The Indians were more sober than the white people in the Territory. In six weeks she did not see a drunken Indian. She saw plenty of drunken white men about the military post.

Miss Willard, at the request of the Convention, accepted membership in the National Prohibition Party Campaign Committee, which was tendered by Chairman Dickie of the Prohibitionists.

DAILY RECORD-UNION

WEDNESDAY............OCTOBER 24, 1888

"Grover Cleveland has done more to advance the cause of free trade than any Prime Minister of England has ever done."—*London Spectator.*

THE JUDICIAL TICKET.

The ticket to be voted for in the State generally, two weeks hence, presents candidates for but two offices, both judicial. The candidates cannot, therefore, take the stump, since it is properly held that those aspiring for these positions should not engage in campaigning in that manner. The RECORD-UNION never has any personal candidates; it supports men and measures upon merit and for the public good, and it therefore advocates the election of the Republican ticket because it believes it to be the wisest policy for this people, and that the indorsement of the nominees by the voters of the State, will be of greatest benefit to the country.

We have already pointed out why Republicans of this Congressional district should return Joseph McKenna to the seat in the House of Representatives that he has so ably and faithfully filled. We come now naturally to that portion of the ticket to be voted upon throughout all the State.

The people of California ought to give their support to the Republican judicial ticket, because it is representative in the highest degree of that legal excellence and the purity of character that should adorn a Supreme tribunal. The party has done honor to itself and to the State in its selection of candidates, and has commended to the voters of California two gentlemen for whom they can cast their ballots with perfect confidence in their integrity and eminent legal qualifications, and their freedom from entangling alliances.

The party candidate for the seat of Chief Justice, Judge William H. Beatty, of Sacramento, is eminently qualified by legal learning and extended judicial experience, to fill the place. By the dignity of his bearing, the breadth of his mind, the clearness of his perceptions and the calmness of his judgment; by the legal acumen that has distinguished all his career as a jurist; by his long service in judicial seats, the purity of his life and his perfect freedom from alliances of any nature or relations in society or business that could be grounds for objection by any, Judge Beatty is fitted for the exalted position for which the party of his political faith proposes him.

The candidate comes of a line of jurists eminent in their day. His grandfather, Adam Beatty, was a profound lawyer and an experienced Judge. The father of Judge Beatty, a lawyer and a jurist of high attainments, and great learning, now retired from the activities of a long and well spent life, in which he took rank among the first legal minds of the day, has himself six years been Associate Justice of the Supreme court of Nevada. Judge W. H. Beatty, the son, and whose name heads the Republican State ticket, is a native of Ohio, and has attained to the full maturity of manhood and development of intellect that fifty years assures. He was graduated from the University of Kentucky, in 1858, and in 1860 was admitted to the bar of the Supreme Court of California. Removing after some time of successful practice in California, to the State of Nevada, his commanding abilities and high character led the people to place him upon the district bench in 1864, a judicial office he filled for the long period of ten years. From that station he was nominated by the people to the Supreme Bench, where he served for six years, in the last two of which he was the Chief Justice.

Probably in no other State in the Union were the questions submitted during that period to an appellate tribunal, of graver importance or more legal intricacy, than those which the Supreme Court of Nevada, was called upon to consider. The bench of the day proved equal to them all, and the Supreme Court reports of Nevada's early and stirring history to-day stand as a monument to the judicial wisdom of the Court over which Judge Beatty presided.

The Republican candidate will thus come to the office of Chief Justice of the Supreme Court of California, with the learning and experience that qualifies and fits the Justice for that rapid and just dispatch of business so essential to our appellate system.

We but reflect the verdict of all who know the Republican candidate, when we pronounce him a man of unblemished reputation, of impregnable integrity, of courteous dignity of manner; as one having a high sense of his duty as a citizen and discharging it fearlessly; a man of public spirit and of marked independence, of judicial calm, scholarly attainment and as one actuated by the warmest human sympathies. The Republican ticket led by such a man ought to command the confidence of the voters of California, and secure such a majority as will emphasize the determination of the people to seat the party in all departments of the government, that is equal to all emergencies and best represents the freedom, intelligence and progressive spirit of the age.

Judge John D. Works, the nominee for Associate Justice, is not so full in years as Judge Beatty, but he comes forward with a record for ability and character that fits him to be the associate of the nominee for Chief Justice. He, too, springs from a judicial line. He was a Union soldier in the War of the Rebellion, and at its conclusion studied law and reached the bar after serving a term in the Legislature of Indiana. He removed to California, locating at San Diego, entered upon the practice of his profession, and was early chosen City Attorney. From that position he was appointed to fill a vacancy in the Superior Bench of that county, and was subsequently elected by the people to an unexpired term as Superior Judge. On the retirement of Justice McKinstry from the Supreme Bench Judge Works was appointed to fill the vacancy, and is now sitting in that tribunal. He is pronounced by the people of Southern California who best know him, a man by legal acumen, close study, and experience, and by true character, well fitted to grace the Supreme Bench and receive the indorsement of the people at the ballot-box.

It is more than gratifying to every patriotic citizen when parties rise to the topmost level of wise chosing for the nonpolitical offices. It inspires the lover of his country with confidence in her institutions and hope for her future. With such candidates as those named leading the Republican ticket, the men of the party are justified in declaring that it has done its duty, and they have reason to ask the people in the excitement of a Presidential year to keep in view the importance of the judicial nominations and to indorse those of the party at the ballot-box.

GEN. HARRISON'S INCISIVE SPEECHES.

Nothing is more significant of the guarantees of a wise administration of public affairs under General Harrison when he is inaugurated President of the United States, as assuredly he will be, than the calm, statesmanlike and perfectly lucid expression he gives of his views in speeches to the scores of delegations that visit him. He evades no question, speaks fearlessly yet with judicial calmness, and his utterances the Democratic press have been unable to successfully assail. Take his speech to the Commercial Travelers delivered on Saturday, when some five thousand people assembled to do him honor. In the very outset, he announces to them that the true policy for Americans is the policy of a protective tariff. He stated his emphatic conviction that there is little or no difference between the scheme of a tariff for revenue, and free trade; that discriminating duties alone enable the American manufacturer to compete with those of other countries, and at the same time pay a scale of living wages. Break down that barrier to unfair contest, said he, and it must result in the reduction of the scale of American wages to the level of wages paid abroad. The shop or mill that has the smallest pay-roll in proportion to its production will take the market. The wages paid the American worker are greatly larger and the comforts enjoyed uniformly greater than those that flow to the workers of other lands. He very happily referred to the ineffecable disgrace that the Democratic Administration sent to England for the blankets supplied to our army, and to just that extent lessened the labor that Americans should do. "This," he exclaimed, "is to me the beginning and the end of the tariff question."

"Since I was old enough to have opinions or utter them, I have held to the doctrine that the true American policy was that which should maintain not only a living rate of wages, but one with a margin for savings and comfort for our workingmen. The propositions that now stare our working people and our whole country in the face are these: Competition with foreign countries without adequate discriminating and favoring duties means lower wages to our working people. Revenue for only tariff, or progressive free trade, means a larger importation of foreign goods, and that means less work for Americans. Let our Democratic friends meet these indisputable conclusions."

A fair challenge, a clear-cut, understandable proposition, and stated with incisiveness and vigor, as have been all the sentences of General Harrison's speeches. There can be paid to their force and effectiveness no greater compliment than that bestowed by the San Francisco *Examiner*, which pretends to dispose of them by tip-tilting its nose and exclaiming, in effect: "They are not of a character to command reply or engross sufficient attention to justify analysis." It is the response of a Democratic organ that is driven to the wall and evades the battle offered to it.

WHAT IT MEANS.

"If we can control Congress and elect a President," said Roger Q. Mills at St Louis, "then we will place raw materials all on the free list." Now, the supporters of the Mills bill are not harmonious as to what are raw materials. It is an expansive term with the majority, however, and more likely to broaden than to contract. Probably a majority classify pig-iron among raw materials, yet it is the product of manufacture, complete in itself, as the result of mill processes. It would be reasonable, in the contingency to which Mr. Mills looks forward, to find the party free-listing pig-iron along with wool, though the latter is the product of stimulated growth and the investment of capital to secure specific results. From this single example of what will be probable in case Mr. Cleveland is elected, we can gain some idea of what Mr. Mills meant when he said, in the same speech, that our laborers are not only "not on equal terms with those of other countries, but are on inferior terms," and that the end and aim of the Democratic party is to place "the intelligent, skillful, productive labor of this country upon a plane of equality with the laborers of all other countries." This leveling process is to be accomplished in part by putting on the free list all raw materials in the production of which labor is now engaged in this country. Very evidently Senator Vest means the words to be taken in an exact and literal sense when he declares that Mr. Cleveland, in his message, has "challenged the protected industries of the country to a fight of extermination."

THERE is but one member of Mr. Cleveland's Cabinet family who is not now on the stump advocating his election. There never was a Presidential campaign in which such desperate exertion as this was made, and never before have we witnessed the spectacle of a Cabinet officer at the command of his principal rushing off to New York to dabble in ward politics in the endeavor to patch up a quarrel in the party—but that is precisely what Mr. Secretary Whitney has been doing.

WHILE General Harrison has been receiving thousands of visitors in delegations numbering from 300 to 2,000, Mr. Cleveland has been left to congratulate himself upon his nomination, with the solitary exception of a visit from the Chicago Base Ball Club. It was not exactly pleasurably indicative however, as just before its visit the club had been ingloriously whipped in a contest for the championship.

THIRD PARTY TACTICS.

One of their Falsehoods to Help the Democracy Securely Nailed Down.

EDS. RECORD-UNION: I send the following for publication to refute one campaign misrepresentation of the third party Prohibitionists, who seem to be willing to make use of all "political methods" to carry their point. We certainly have a right to expect nothing but honest representations from a party making such high moral pretensions, and all misrepresentations are a detriment to the cause it essays to champion. The false statement to which the inclosed refers has had wide circulation in the third party papers of this State. It is as follows:

"Governor Foraker of Ohio has placed himself on record as declaring officially that the policy of taxing the liquor traffic is eternal, and the Republican party is irrevocably committed to it."

Knowing Governor Foraker to be a strong temperance advocate, an earnest Christian and an honest man, I took the liberty of submitting to him the statement, asking concerning its truthfulness. To my request the following reply was returned:

Rev. T. W. Lincoln, Ione, Cal.—DEAR SIR AND COMRADE: I am in receipt of your letter of the 6th inst. with the clipping inclosed as stated. I never said any such thing, officially or otherwise, in either language or spirit, as it reports. Our first legislation in Ohio with respect to the liquor traffic was the enactment in 1882 of a statute known as the "Pond Law." This was declared unconstitutional by our Supreme Court. The following year another statute was enacted, known as the "Scott Law." This law provided for a more efficient regulation of the traffic, including local option prohibition. As soon as it had been passed, suits were brought to test its constitutionality. While they were pending in the Supreme Court, I was first nominated for Governor in 1882. The platform adopted by the Convention that nominated me indorsed the Scott law. At a reception given me by the Lincoln Club in Cincinnati a few days after I had been nominated, I said, speaking of this question, that the Republican party had enacted this law and approved it; that it was not yet known whether the Courts would sustain it, or not, but that we did know that whether the law stood or fell, the principles embodied were eternal and would stand, and that to them the Republican party of Ohio was irrevocably committed.

My purpose was simply to assert that the Republican party had taken hold of the liquor question earnestly, and that it did not propose to be frightened away from its duty by defeats at the polls such as we had sustained the year before, on account of the Pond law, or in the Courts, but that we proposed to go ahead until there was a solution of the problem.

This is the only thing I have ever said that would give a shadow of suggestion even for such missatements as you have inclosed to me. I am thankful to believe that in this part of the United States I am well enough known to make it unnecessary to pay any attention to such miserable lies. Very truly yours, etc.,

J. B. FORAKER.

All Ohio men recall the efforts made to secure the Scott law. Petitions from churches, conferences, synods, temperance societies and citizens flooded the Legislature. The religious press and ministry universally indorsed it, so that under no circumstances can the words of Governor Foraker be construed as indicated by the item referred to.

I trust, in the interest of the temperance cause, that the third-party papers will give the facts as wide currency as they have the falsehood. Very truly,

T. W. LINCOLN,
Pastor M. E. Church.

Ione, October 22, 1888.

[SPECIAL DISPATCHES TO THE RECORD-UNION.]

THE COURT OF INQUIRY.

Second Day's Proceedings in the "Times"-Parnell Case.

LONDON, October 23d.—On reassembling to-day, Biggar, member of Parliament, personally requested that he be supplied with copies of the speeches read by Webster yesterday, which referred to him.

The Attorney-General promised them and then continued the presentation of the *Times'* case. He said Parnell's supporters had been trying to exhibit him as one who stood aloof from the anti-rent and plan of campaign agitators. But the fact was that in 1880 Parnell had led the anti-rent movement, and in a speech in county Kerry told his hearers the Land League had plenty of money to defend tenants and farmers who refused to pay rent. He referred to the advice given by Boynton, Timothy Harrington and Father O'Leary at the Barryclough meeting in 1881, and said at that time Parnell and his colleagues did not conceal their sympathy with the League's emissaries in crime.

The special features of Websters presentation were the declaration that all information would now be furnished concerning persons and circumstances, and the production of the letter purporting to have come from the late Timothy Harron, who was a member of the Kerry Branch of the Land League, and who requested money for the men who had been wounded. The letter was indorsed by John Ferguson, of Glasgow, then a member of the Executive Committee of the Land League, to the effect that a grant of £35 had been given. The Attorney-General suggested that the men were wounded in moonlighting, and that the League, by giving them grants, had thus brought itself in direct connection with the perpetrators of outrages.

FRENCH AFFAIRS.

A Deputy Who Wants to See France Prepared for Emergencies.

PARIS, October 23d.—General Boulanger was present in the Chamber of Deputies to-day.

Baron Soubeigon stated that the enormous proportions of the public debt demanded reductions of the Government staffs and the sale of State railways.

Roche, in his report of the Budget Committee, declared the criticisms exaggerated. Europe had been transformed into a vast entrenched camp. France was not free in her movements. It was impossible to isolate herself before these menacing coalitions. He appealed to the patriotism of the members of the Chamber to pass the budget.

The speech was greeted with cheers.

In the Senate, Penanster, of the Right, proposed a committee to consider the question of a revision of the Constitution and the suppression of the Concordat. The proposal was rejected.

Russia's Military Movements No Cause for Present Alarm.

BERLIN, October 23d.—The *Post* says there is no reason for alarm over the reported preparations for the transfer of Russian troops towards the Austrian and German frontiers. It asserts that the Russian Government had decided upon these movements last spring.

The *Italso* says the probability of Russian warlike action towards the West is entirely out of the question, in view of the present general European situation. Russia's relations with Germany have continued to be of a satisfactory nature since the Emperor's recent visit to St. Petersburg.

Americans Said to Have Influence Over Wurtemberg's King.

BERLIN, October 23d.—The *Neuste Nachrichten* of Munich publishes a sensational article in relation to the Wurtemberg Court scandals. It denounces the favoritism shown by the King of Wurtemberg to three Americans, who, it says, by means of spiritualism, have gained an enormous influence over the invalid monarch, which they are using for blackmailing purposes. It says that one of them, who was formerly a Secretary in the American Legation at Stuttgart, has recently been ennobled.

[*Copyright, 1888, by the California Associated Press.*]

ROME, October 23d.—The Pope, in contributing $60,000 to the anti-slavery movement, has written to Cardinal Lavigerie in terms of praise and encouragement of the scheme, in which he is commissioned by the Pope to invite the co-operation of Europe.

Serious Charge Against a Minister.

BERLIN, October 23d.—The *Post* charges that M. Usoff, the Russian Minister at Brussels, forged the letter alleged to have been written by Prince Ferdinand, of Bulgaria, to the Czar, and which caused the Czar's suspicion that Prince Bismarck had untriendly designs upon Russia.

An Orange-Socialist Riot in Ireland.

DUBLIN, October 23d.—A riot broke out at Moy to-day between Orangemen and Socialists. The police were reinforced and charged the mob with bayonets. Several policemen were injured by stones thrown by the rioters.

Coal Miners' Strike in England.

LONDON, October 23d.—Several thousand Yorkshire miners have gone on a strike, and it is expected that many others will join the strike to-morrow and Thursday. Coal has advanced from thirty to forty per cent. in price during October.

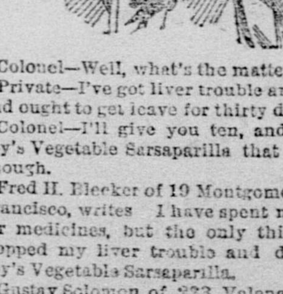
The Trend in Indiana.

A bombshell of the greatest magnitude was exploded in the very heart of the Democracy at Greencastle, Indiana, recently. Howard Briggs, editor of the Putnam *Democrat*, in a speech of forty minutes, before a large crowd in the Opera House, denounced most thoroughly the Democratic party. Mr. Briggs is the oldest editor in Putnam county, and has been a life-long Democrat. He has for twenty-five years, with the exception of two, been the editor of the Democratic county organ. He is also a member of the Board of Trustees of the State Blind Asylum, which place he has held for several years. He gave many pointed reasons for changing his politics, among them being the present corrupt Administration, the free-trade tendency of the Democratic party and its ruinous effects upon the future of the country should they gain power. He wound up his address by saying he would not be doing his duty to manhood should he not support Harrison for President. Mr. Briggs has a large following of the better Democrats all over the county, who swore by him, and his flop will change scores of votes.

John Lehmann, editor of the Crown Point *Free Press*, a German paper of wide circulation, came out in his October 4th issue for Harrison and protection to American labor. Mr. Lehmann has been a life-long Democrat. He was the Democratic candidate for State Senator for Lake and other counties in 1886. He is a prominent and influential citizen, and the local Democracy is greatly excited over the lose and the reasons given by Mr. Lehmann for his change.

IT WAS LONG ENOUGH.



Colonel—Well, what's the matter now?

Private—I've got liver trouble and dyspepsia and ought to get leave for thirty days.

Colonel—I'll give you ten, and if you take Joy's Vegetable Sarsaparilla that will be long enough.

Fred H. Bleeker of 19 Montgomery street, San Francisco, writes: I have spent many a dollar for medicines, but the only thing that ever stopped my liver trouble and dyspepsia was Joy's Vegetable Sarsaparilla.

Gustav Solomon of 223 Valencia street, San Francisco, writes that it has entirely freed him of his indigestion and sick headaches.

The French have discovered a method of making smokeless powder, the detonations of which are scarcely audible, so that the firing will not reveal the whereabouts of an army. This invention and the superiority of the Lebel rifle have excited great attention in military circles in Europe, and are likely to effect a revolution in warfare.

SAN FRANCISCO AND VICINITY.

C. W. Smith, a friendless youth, who was found sick on the street, lies in a precarious condition at the Receiving Hospital.

W. H. L. Barnes, Jr., who has been seriously ill for some days, was reported somewhat worse on Monday by his physicians. They state that lack of exercise since leaving Harvard has caused a tendency toward fatty degeneracy of the heart.

Andrew McCormick, 10 years old, living at 14 Louisa street, attempted to jump on a heavy four-wheeled dray on Monday. He missed his footing, fell beneath the vehicle, and one of the wheels passed over his left shoulder, crushing it horribly. He expired in half an hour.

For Tired Brain Use Horsford's Acid Phosphate.

Dr. O. C. Stout, Syracuse, N. Y., says: "I gave it to one patient who was unable to transact the most ordinary business, because his brain was 'tired and confused' upon the least mental exertion. Immediate benefit and ultimate recovery followed."

Why is a stick of candy like a race horse? The more you lick it the faster it goes.

GENERAL NOTICES.

Advice to Mothers.—Mrs. Winslow's SOOTHING SYRUP should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best-known remedy for diarrhea, whether arising from teething or other causes. DESIRABLE BUILDING LOTS.
IN VIEW OF THE INCREASED PRICE OF desirable building lots in Sacramento, we have come to the conclusion that lots will have to be made smaller in order to come within the reach of men of moderate means. Acting upon this, we recently subdivided that beautiful lot on the SOUTHEAST CORNER SIXTEENTH AND K STREETS into four lots, and have sold three within a week. We still have one lot left, fronting 35 feet on K street and 80 feet deep, which we offer for the low price of $1,250.
We have now subdivided that desirable lot, 120x160, on the SOUTHWEST CORNER OF H AND NINETEENTH STREETS, into five lots, as follows:

Nineteenth street.

H street.				Alley.
	40x80 $1750	40x80 $1000	40x80 $1200	
	40x80 $1500			
	40x160 $2000			

H street is and always will be the most desirable residence street in Sacramento.
The above lots will be sold on easy terms.

LOCAL INTELLIGENCE.

STILL AT LARGE.

Sheriff Cunningham's Exciting Chase After Sepulveda.

A telegram from Stockton says that Sheriff Cunningham has returned from the chase after Sepulveda, the convict who escaped from Folsom Prison last Wednesday, taking two horses with him. Cunningham followed the fugitive into Livermore valley, coming up to him just at dark Saturday evening. The Sheriff was in a buggy, a young man accompanying him as driver.

When Sepulveda was overhauled he was riding one of the stolen animals. Cunningham called on him to stop, but he tried to get away, and the officer shot the horse dead, jumping from the buggy immediately after the shot. The officer's foot caught in some way, and he fell. Sepulveda was on his feet instantly, and ran through a barbed-wire fence and escaped in the darkness, leaving his hat on the ground. When Cunningham regained his feet the convict was running fast, and could not be overhauled, but was chased by Cunningham until it was too dark to follow him farther.

The officer returned with the saddle, bridle, hat and Sepulveda's coat, which was tied behind the saddle. Cunningham says he could have killed the man, but he did not want to shoot him, and but for his fall would have taken him. Deputy Warden Robinson, of Folsom, is at Livermore, trying to get on the trail of the hatless and coatless Mexican.

WHO ARE THEY?

Two Young Ladies From Sacramento Distinguish Themselves.

The Marin county *Tocsin* contains the following:

"Last Thursday two young ladies of Sacramento, who have been camping in the neighborhood of Bolinas, went on a huckleberry picnic and were somewhat surprised to encounter a large brown bear engaged in the same line of business. One of the young ladies, who is an expert shot, happened to have a rifle and though not wishing to arouse any hard feeling, did not propose to have her fun interfered with by man or beast. Therefore, as bruin seemed disposed to assert a monopoly of the entire huckleberry crop of the district, she quietly but resolutely took the offensive and sent a bullet through its brain. This is the first bear, we believe, that has ever been killed by a woman in Marin county. The carcass was brought to San Rafael by the Bolinas stage. It was a big, ugly brute, and a look at it was sufficient to arouse admiration for the grit of the two quiet-looking ladies that put it asleep."

TEMPORARY CERTIFICATES.

Important to Applicants for Educational Diplomas.

Ira G. Hoitt, Superintendent of Public Instruction and Secretary of the State Board of Education, has sent out a letter to the Superintendents of Schools in the various counties in which he says:

"I find a number of teachers who have applied for life and educational diplomas are teaching on temporary certificates. Unless their applications are acted upon very soon they will be compelled to undergo examinations or lose their positions. In order that such teachers may not be subjected to inconvenience in the matter of certificates, and considering that the Board can transact its other business as well at that time as later, I have called a meeting of the State Board of Education, to be held at Sacramento, office of Superintendent of Public Instruction, Saturday, November 10th, at 10 A. M., to give special attention to these matters."

Elocutionary Entertainment.

A good audience of intelligent people was present last night at the Baptist Church to hear the elocutionist, Miss Ida K. Hinds. A larger one will be present to-night. Miss Hinds thoroughly pleased her audience. She was happy alike in her serious and her lighter selections. Her personations of "A Female Canvasser" and of Rev. T. DeWitt Talmage produced irrepressible merriment. Her most striking performance, perhaps, was her rendering of selections from Dr. Sevier. After reading a minor selection she essayed the wild ride of Mary Richling through the Confederate lines to her dying husband. Cable himself had read it here but a few weeks before. It was a high light to stand under, but the lady bore it well. From the moment the spy called "Go," as the shots flew from the Confederate picket, every man and woman in the audience was on horseback and in the race, and those who had read of the light of victory in the human face, knew what it meant as they looked into the face on the platform. She reads again to-night in the same place.

A Lively Ward.

The Republican Club of the Fourth Ward held a large and enthusiastic meeting last evening at Parker's Hall, Seventeenth and N streets. The object of the meeting was to make arrangements for the industrial parade on the 31st inst. O. W. Erelwine presided. Committees were appointed on the different features of the parade as follows:

Torches—R. Parker, C. Foot, J. Wingart and O. A. Henley.

Transparencies—J. F. Richardson, A. H. Starr and George Royster.

Arrangements—B. McVey, G. Grogan, C. Foot, H. Dorenner and John Rainey.

Finance—A. H. Starr, William Tebbetts and R. Parker.

Money was raised during the meeting with which to secure a band for the parade. The Fourth Warders expect to turn out 250 in the procession. The meeting adjourned to meet at the same place on Saturday evening.

Police Court Notes.

In the Police Court yesterday morning the man who forged the name of O. H. Bliss and attempted to draw $500 from the National Bank of D. O. Mills & Co., was held to answer to the Superior Court on a charge of forgery. He refused to give his right name, saying that he was respectably connected and did not want to bring disgrace on his family. He makes no denial of his guilt.

James Kearney and C. H. Young were arraigned on charges of vagrancy. The case of the former was continued until to-day, and the latter was sentenced to twenty days in the County Jail.

Gin Gee was fined $10 for selling lottery tickets.

Special Policemen.

The Board of Police Commissioners held a special meeting yesterday morning and appointed Joseph Brown a special officer for the Sacramento Museum, in place of T. T. Crump, removed.

The following specials were appointed for service on the 31st inst., the day of the great Republican demonstration: William Walter, M. D. Eldred, Matt Coffee, Charles Herndon, H. Garrett, William Karcher, Fred Ingram, Pax McDonald, John Valle and Robert Good.

STATE REPORTS.

Harbor Commissioners, Napa Insane Asylum, Normal School, Etc.

There has just been issued from the office of the State Printer the biennial report of the Trustees and the twelfth and thirteenth annual reports of the resident physician of the Napa State Asylum for the Insane. The officers of the Asylum are as follows:

Board of Trustees—Benjamin Shurtliff, President, Napa; J. C. Martin, Oakland; J. Q. Brown, Sacramento; G. N. Cornwell, Napa; J. F. Lamdin, Napa.

Treasurer and Ex-officio Secretary—C. B. Seeley, Napa.

Resident Officers—E. T. Wilkins, M. D., Resident Physician; L. F. Dozier, M. D., Assistant Physician; F. W. Hatch, M. D., Assistant Physician; J. W. Robertson, M. D., Assistant Physician; J. B. Stevens, Private Secretary; J. M. Palmer, Steward; Mrs. Jennie Hawks, Matron, J. E. Stansbury, Steward's Clerk; John Hawkes, Supervisor; Eliza Kennedy, Supervisoress; W. H. Martin, Druggist.

The number of patients in the asylum June 30, 1888, was 1,469. The daily per capita cost for the fiscal year ending June 30, 1887, was 37 1-5 cents; for the last fiscal year it was 39 1-5 cents.

Since their last biennial report necessary improvements on the asylum and the premises connected therewith have been made, commensurate with the limited funds in their hands available for such purpose. Maple floors have been laid in eleven of the thirty-one wards of the building. By raising the dam of the fire protection reservoir six feet, its capacity has been increased to two million gallons. As completed, the value of this improvement is incalculable. With the prompt, efficient action of the well disciplined asylum hose company, it has already saved the institution from a terrible conflagration. The capacity of the other two reservoirs has also been vastly enlarged.

A large, convenient barn has been built, while many other needful improvements have been made, which are fully described in the ample report of the Resident Physician.

They respectfully ask the Legislature to pass a law to prohibit the commitment and admission of criminal insane persons to the State asylums and hospitals for the insane. There is a moral obliquity, a subtile viciousness in the criminal insane that renders them unfit companions or associates for the innocent, respectable insane. The States of New York and Michigan have special asylums for the exclusive use of the criminal insane, a wise, humane policy that commends itself to the serious consideration of the people of California.

From July 1, 1886, to July 1, 1887, 227 male and 136 female patients were admitted. Of these, nine male and five females were from Sacramento county.

Of those admitted 154 were native Americans and 209 foreign born. Ireland leads the list with fifty-nine, twenty-nine of which were females.

The cause of insanity is given in 363 cases, and intemperance leads the list.

CALIFORNIA STATE NORMAL SCHOOL.

The catalogue and circular of the California State Normal School at San Jose, for the year ending May 31st has also just been issued.

The number of pupils in the different classes are as follows: Senior, 193, middle 199, junior 205, total 597. Training department 196. Grand total 793.

The calendar for 1888-89 is as follows:

First term opens September 4, 1888, and closes December 20, 1888. Alumni reunion, Thursday evening. Holiday vacation from December 21st to January 7th, inclusive.

Second term opens January 8, 1889, and closes March 28, 1889. Mid term vacation from March 29th to April 8th, inclusive.

Third term opens April 8th, and closes June 27, 1889. Graduating exercises, Thursday, June 27, 1889. Alumni Association, literary exercises and reunion, Thursday evening.

The Normal School has a well organized training department, and in this the pupil teachers will find ample opportunity to apply practically the instructions received in methods of teaching; and members of the senior class will be required to demonstrate to the faculty of the Normal School their ability to teach *well* before being recommended for graduation.

The model class, connected with this department, will afford excellent opportunity for observation, and will in its course of study correspond very closely to the highest grade in the grammar schools of the State.

Tuition is free. Boarding, in pleasant private families, can be had at from $16 to $25 per month. All necessary stationery is furnished, and the pupils have free access to a large and well-selected reference library.

Tom Reed of Maine.

To-day two of the greatest statesmen in America are from Maine, and one of them, Tom Reed, will arrive from the East this morning, and address the citizens of the capital city in the Clunie Opera House to-night. As a statesman and orator his reputation is second only to that of the "plumed Knight." No doubt the Opera House will be crowded from pit to dome and those who do not call early will be shut out.

Why They Changed.

"I know of three Democrats that are going to vote for Harrison," remarked a business man yesterday. "They are not blind to the fact that Democratic supremacy means death to American industries. I know one man, a Republican, who has one hundred employes and who has announced himself in favor of Cleveland. He says he changed because he is in favor of cheap labor."

The Barometer Falling.

The average Signal Service temperature yesterday was 65°, being 5° warmer than the normal for that day. The highest and lowest temperature was 75° and 55°, with light, variable northerly winds during the forenoon, and southwesterly winds the remainder of the day. The temperature at 5 A. M. was 55°; at 12 M., 75°, and 5 P. M., 75°; barometer 29.99 inches, and falling.

PROTECTION.

A Republican in Favor of Shutting Out Foreign-Manufactured Goods.

A large number of Republicans assembled at headquarters last evening to hear a speech from David Lubin.

The meeting was called to order by F. R. Dray, candidate for State Senator. He said the Republicans had almost completed the canvass of the county, and they found the Republicans everywhere solid. On the other hand, the Democracy was reflecting, they were wavering, and a large number had come out and said they could not and would not support Cleveland.

The Glee Club sang "The Democratic Boat."

The Chairman introduced the speaker of the evening, David Lubin. He said the latter had been an extensive traveler in foreign lands, was a close observer and had recently returned from an extended tour of Europe.

Mr. Lubin started in by saying that he was a free lance. No man had greater contempt for political parties in municipal affairs than he did. He wore no man's collar. He was not for sale, could not be bought, and generally, in local affairs, deposited a very badly-scratched ticket. There were but two times in his life that he had a desire to become a politician. The first was when he was a boy, and Abraham Lincoln struck the shackles from the millions of Southern slaves and made them freemen. The other is to-day, when he wanted to vote for Harrison and protection to American industries. When the questions at issue are local, then he selected the best man for the position, regardless of his party affiliation. He did this in the interest of good government. In national politics, however, he went nothing on the man, but for the principle involved. The issue to-day is not between Grover Cleveland and Benjamin Harrison, but the great principles which they represent—free trade and protection. There are great and good men in the Democratic party. There are many honest men within their ranks who declare they are not for free trade. However, behind these stands the solid South, and the South is now demanding, and has always demanded, free trade. Whenever the countries of Europe dethrone their rulers, disband their standing armies, establish republican forms of government, elevate labor, place woman on an equality with man, pay the producer for his product, become a free and independent people, then will it be time to talk of free trade. Until the laborer of Europe throws off the yoke of oppression, we can show them no favor and we must protect the principle here. He was in favor of not only maintaining the protective tariff, but of putting on a prohibitory tariff. If the laborers of Europe want to manufacture for this country let them come to these shores and do so. He was very severe on the ballot-box stuffer and the individual who bought or sold votes. He thought capital punishment should be visited upon the individual convicted of either of these offenses. He gave a description of the laboring classes in Spain, Germany and other European countries. His description of how the women of Germany carried the hod, and built the railroads, was very graphic. He said the success of the free-trade party in this country would bring about the same state of affairs here, would soon deprive us of our liberties, and ultimately would cause the downfall of the Republic.

LOCAL BREVITIES.

A musical and literary entertainment will be given at the First Baptist church Monday evening October 29th.

Officers Able and Green yesterday arrested William Holland, alias "Circus Bill," on a charge of vagrancy.

The Governor yesterday appointed P. D. Browne a Notary Public for Alameda county, to reside at Oakland.

The First Artillery Regiment band went to Red Bluff yesterday to play at a Republican meeting at that place last night.

The first anniversary drill and ball of the Italian M. S. Bersaglieri Society No. 3 will be held at Armory Hall Tuesday evening October 30th.

"Will El Dorado go Democratic this year?" was asked of a farmer from that county yesterday. "No, sir! Put her down for Harrison. I know of twenty-five Democrats in one precinct that have renounced Cleveland."

Deputy Sheriff Paxson McDowell yesterday took to the Insane Asylum at Stockton Miss Jennie Howe, of Folsom. The mother of the unfortunate young lady accompanied her to Stockton, and returned yesterday afternoon.

Yesterday Governor Waterman issued a commission to Joseph S. Bright, of San Bernardino county, authorizing him to act as an agent for the State in the case of E. N. Hamlet, a fugitive from justice, and receive him from the State of Minnesota.

Judge Armstrong yesterday rendered a decision in favor of the defendants in the case of Dwight Younglove vs. B. U. Steinman et al. Suit was brought by the plaintiff to restrain the Sacramento Electric Light Company from levying an assessment.

A letter written by E. K. Alsip, who has been spending several weeks in Philadelphia in connection with the building of a supply of cars for the Electric Railroad of this city, says: "Our car is a complete success. It is now on its way to California, and more will soon follow."

Nero Schuvarro, who made an assault on a seven-year-old girl on Sunday, was examined by the Commissioners of Lunacy yesterday, and it was ordered that he be held in custody at the County Jail until further orders. He seems to be more of an idiot than lunatic, but at the same time he is dangerous to be at large.

The annual meeting of the State Horticultural Society will be held in the rooms of the State Board of Horticulture, 220 Sutter street, San Francisco, on Friday, October 26th, at 1 o'clock P. M. The election of officers for the coming year will be held. The subject for discussion will be: "Orchards—What to Plant and How to Plant." Also, "The Drainage of Orchards."

Hon. P. D. Wigginton, candidate of the American party for Vice-President of the United States, addressed a large audience at the Clunie Opera House last night in favor of the principles of his party. He argued that there was no issue between the old parties except as to which should rule. The Republican party had accomplished its mission and the Democratic party had none.

Metropolitan Theater.

A very full house greeted Mr. James and his company on the rise of the curtain last night upon Shakespeare's sparkling comedy, "Much Ado About Nothing." Mr. James was the Benedick of the play. He read and acted the part in an easy, natural, manly way; not as it has been given, as a jester, but as a man of high spirit, keen but kindly wit, and a noble and chivalrous soul. Marie Wainwright was a charming Beatrice. It will be said of her rendition that it lacked womanly dignity, was too frivolous and mocking, too ebullient and too girlish. But we conceive her interpretation to be justified by the text. It certainly was one refreshing, innocent and sparkling in its raillery. It was illustrative of many a human experience on which genuine affection has been born of the clash of wit and the challenge of harmless mockery. Miss Wainwright's art was in no lines more justified or better manifested than in the scene in which she demands of Benedict that he shall kill Claudio. She spoke the line and accompanied it by the action that testified to the doubt in Beatrice's mind whether, in her anger, she really intended her words to be taken literally. It was a new reading of the text, but one more consistent with the scheme of the play than that given it by conventionality. While other artists have interpreted the part as that of a woman won by device and much against her will, she makes it clear from the outset that Benedict was more than kindly in her thought. Her inquiry for him under another name is made to appear a confession of an interest in him deeper than she knew perhaps, but still one above the mere trifling desire to renew the "merry war" in which, Leonato explains to the messenger, the two wits engage whenever they meet. Miss Wainwright's success was unmistakable. She won her audience heartily and merrily, and a comedy artist needs no better proof of the correctness of the means employed. She identified herself completely with the character, giving no thought to conventional methods, but drawing the part of Beatrice as she felt it, presenting a beautiful dramatic picture—one not robust nor strong, but full of the rich color of beauty and poetry, and distinguished by the graces of a high-bred, daring, witty and pure woman. The support afforded by Mr. Boyle, as the Prince, was level with the character. Mr. Mosely was less feeling as Claudio than is excusable; his unemotional reception of the news of Hero's death, and later of her vindication, was not in keeping with the character of a man who could be loved by Hero or love her as he professed. The Dogberry of Mr. Langton was an admirable piece of work, and Dunbar's Leonato was that of a high-minded, refined gentleman, not hasty to anger nor slow to avenge his daughter's wrongs. Besides these, the support was but ordinary, but the superiority of the leading people, the brilliancy of the Beatrice and the manliness of the Benedick so illumined the play that minor characters were not of much moment in the eyes of the audience. To-night will be the last, when Sheridan's comedy, "The School for Scandal" will be played, with Mr. James as Charles Surface, Mr. Mosely as Joseph, Mr. Langton as Sir Peter Teazle, Miss Wainwright as Lady Teazle and Miss Meek as Mrs Candour, five allotments that, from what has been seen of the troupe, alone justify the promise of an evening of comedy of rare worth. It is very much to be regretted that the season of the legit mate by this company is so brief, and that the likelihood is that such visitations will be far apart.

A correspondent calls attention to the fact that it was error to say "Much Ado About Nothing" had not been played in Sacramento before last night. It was played at the old Metropolitan in 1871 by the Proctor company, with Rose Evans as Beatrice, Jennie Mandeville as Hero, James F. Cathcart as Benedick, Walter Leman as Leonato and Pierrepont Thayer as Claudio.

"The Kitty."

Manager Hall announces that Friday and Saturday next the extravaganza entitled "The Kitty" will be played at the Metropolitan Theater, with W. A. Mestayer, Theresa Vaughn and Amy Ames leading. Mestayer is well known. He was one of the original California Theater company, and in his earlier efforts was alike successful in melodrama and low comedy. In later years he has drifted into the position of founder and promoter of the modern order of burlesque and extravagant (so-called) satires. Amy Ames will be remembered as the Cook with the original "Tin Soldier" combination. Theresa Vaughn is a well-known contralto, a "dresser" of the bewildering order. These are supported by a group of pretty women formerly of Henry E. Dixey's company. "The Kitty" is of the order of plays such as Hoyt, author of "Tin Soldier" and "Brass Monkey," constructs, but it is not from his pen. It has had a successful run in San Francisco, and probably will take fairly well here; but if we are to judge by report, while very "funny," is not above the level of the so-called comedy extravaganzas that seem to have seized upon the stage.

MARSHALL'S MONUMENT.

It will be Completed in a Few Weeks—The Unvailing.

One of the Marshall Monument Commission visited Coloma last week to look after the work of the monument. He reports as being more than pleased with the progress made, and the substantial character of the work so far as completed. A discharged employe circulated a report some weeks ago, to the effect that the work was not being done according to contract, and that inferior material was being used in its construction. The Commissioners have since made personal inspection, and denounce the statement as unwarranted, and absolutely false.

The monument is being erected on the summit of Marshall hill, which is some 300 feet in hight, and which overlooks the little valley of Coloma. Here it was that the discoverer of gold, years before his death, selected his last resting-place. The property was his own, the hill of granite formation, and overlooking the American where stood the mill, in the race of which he made the discovery that created a commotion throughout the world. It was a happy thought. The foundation of solid concrete and blocks of granite is sunk deep in the decomposed granite formation, and tons of stone hold down his coffin. The foundation is 25 feet square, and, of course, has a massive appearance. This granite monument, which tapers to the summit, which is 30 feet high and 6 feet square on the top, has now reached a hight of 12 feet. The design is a unique one, and when it is surmounted by the 10-foot bronze statue of Marshall, it will be one of the most imposing structures in the State of California. Some of the blocks of granite used in its construction weigh many tons, and they are handled and fitted to their place with a nicety and exactness by the use of powerful derricks.

F. Marion Wells, the sculptor, has had to work under many disadvantages, but he has overcome every difficulty. His first foreman proved to be a fraud, but he was dismissed as soon as his incompetency "cropped out," and a first-class man is now in charge. The design reflects credit upon the sculptor and will add to his fame as a historian in marble. This monument will be a credit to the State, and is a complete history of the pioneer days. Marshall is represented standing on the summit of an immense column of granite, in the garb of the argonaut. In his right hand he holds a nugget of gold, and with his left he points to the sparkling river that runs at his feet, to the exact where he made the discovery over forty years ago. The pannels on the sides of the monument are carved in white volcanic rock, and are all historic in character, representing the great seal of the State, the implements of the pioneer, Sutter's mill as it appeared at the time of the gold discovery, and the tools of a mill-wright, which was Marshall's trade.

The Commissioners held a meeting in Placerville on Saturday last, at which all were present. They decided to have the unvailing in January, during the session of the Legislature on which occasion special trains will be run from this city to Placerville. From the latter place passengers will be conveyed to Coloma, eight miles distant. The citizens of Coloma will give the visitors a grand reception, and the day's festivities will conclude with a grand promenade concert in the evening at the Coloma Vineyard House.

The honor of orator of the day was tendered to Senator A. F. Jones, of Butte, and he has accepted. Short addresses will be made by members of the Commission, the President of the Sacramento Society of California Pioneers and others. It is expected, weather permitting, that this will be a grand reunion of all the Pioneers and Native Sons of the Golden West upon the coast. Certainly, no better occasion, nor more appropriate place, could be selected.

Republican Rally.

Reports from additional towns, which came yesterday to the hands of the Executive Committee for the grand State Republican rally, show increasing interest and prospects of an enormous throng here on the 31st. Benicia proposes to send up from 250 to 300 as her expression in favor of protection. Other towns all along the lines of railroads leading to Sacramento make similar reports, and which, in the aggregate, will make a demonstration that will make the supporters of the free trade administration ticket wonder where the people of this Republican year all come from.

Auction Sales.

Bell & Co. will sell at salesroom No. 927 K street, at 10 A. M. to-day, a grand square piano, stool, cover, etc., complete, a large number of handsome bedroom sets, mattresses, tables, chairs, curtains, etc.

On Saturday next in front of the Court-house at 2 P. M. W. H. Sherburn will sell the north half of lots 7 and 8 in the block between Q and R, Fourteenth and Fifteenth streets, with all improvements thereon.

Annihilating a Multiform Disease.

Miasmatic or malarial disease has many forms. Physicians have, for the sake of convenience, and for the purpose of indicating its most strongly-marked forms, subdivided it into intermittent and bilious remittent fever, dumb ague and ague cake. But it presents an infinite variety of symptoms in different individuals. Be these symptoms what they will, always remember that Hostetter's Stomach Bitters will annihilate them at the outset, and prevent their recurrence. A review of the proofs would convince any one of the fact. This, however, is impossible, because they are too numerous, and unnecessary because the effects of this grand anti-malarial specific are a matter of common knowledge. No less familiar to the public are its remedial and preventive effects in bilious attacks, constipation, dyspepsia, incipient rheumatism, debility and kidney troubles. It is, moreover, an excellent appetizer and tonic nervine.

South American News.

The steamer Colima, which arrived from Panama on Sunday, brought Central and South American advices to September 29th.

A storm on August 11th and 12th destroyed seven vessels in Valparaiso harbor and did much other damage, while on the 11th a reservoir burst and flooded the city, causing great loss of life and destruction of property.

The boiler of a steamer exploded at Colon August 18th and blew two crews into unrecognizable fragments.

The movement for the restoration of the Central American Confederation is progressing harmoniously and even enthusiastically.

A bill has passed the Chilean Senate authorizing the sale to the highest bidder of the nitrate beds belonging to the State.

The Lower House of the Peruvian Congress has enacted a law compelling the Catholic cemetery managers to receive the bodies of suicides, criminals and heretics.

Give Them a Chance.

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work. And what they do they cannot do well.

Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon this for certain.

Peculiar

To itself in many important particulars, Hood's Sarsaparilla is different from and superior to any other medicine.

Peculiar in combination, proportion and preparation of ingredients, Hood's Sarsaparilla possesses the full curative value of the best known remedies of the vegetable kingdom.

Peculiar in its medicinal merit, Hood's Sarsaparilla accomplishes cures hitherto unknown.

Peculiar in strength and economy—Hood's Sarsaparilla is the only medicine of which can truly be said, "100 doses one dollar." Medicines in larger and smaller bottles require larger doses, and do not produce as good results as Hood's Sarsaparilla.

Peculiar in its "good name at home"—there is more of Hood's Sarsaparilla sold in Lowell, where it is made, than of all other blood purifiers.

Peculiar in its phenomenal record of sales abroad, no other preparation has ever attained such popularity in so short a time. Do not be induced to take any other preparation. Be sure to get

SILK AND LINEN DOYLIES.

Small Doylies for finger bowls, etc. Silk one way and linen the other, assorted colors and designs, 25 cents each. Large Silk and Linen Bureau and Sideboard Scarfs, $5. Embroidery Department.

White Cashmere Drapery Scarfs, with wide Roman satin stripes on the ends, $2. Something new and very attractive.

It doesn't take much to be a fourth or fifth-rate anything. It does take something to be at the top. There can be but one "first." That place in any pursuit or any line of business costs almost infinite labor, skill and experience, in addition to natural abilities. In the hat trade the Dunlaps have simply paid that price and hold first positions.

Hatters everywhere know their place.

When one knows what the best is, why not get the best? It doesn't cost more than to get less desirable makes, and it's a satisfaction to know that one has just the "proper" shape upon his head.

The Dunlap Hats cover more of the wealth, fashion and brains of the country than those of any other make.

SAN FRANCISCO MARKET.

SAN FRANCISCO, October 23d.

FLOUR—Fair local trade and moderate export movement shipments having been made within a few days to China, Australia and Great Britain. We quote: Net cash price for Family Extras, $4 80@5 ℔ bbl; Bakers Extras, $4 75@4 85; Superfine, $3 35@3 60.

WHEAT—The market presents very little of general interest. Standard grades, are quotable at $1 57½@1 60 ℔ ctl, because custom can be found within this range, though to obtain the higher figure the parcel must be choice in quality. Offerings are quite light, the indisposition of holders to sell at current figures being quite marked by the few samples submitted of No. 1 grade.

BARLEY—Feed descriptions show more steadiness though receipts continue free. No Chevalier of first-class grade is to be found and there is no market for lower grades. We quote the following prices: No. 1 Feed, 82½c for new and 80c for old old; common grades, 75@77½; Brewing, 95@97½c for fair to good, and $1@1 02½ for choice.

OATS—Receipts continue liberal, but the demand is about large enough to prevent much increase of existing surplus in warehouse. Taken altogether, the condition of affairs is more hopeful than in some time. We quote: Surprise, $1 20@1 25; milling, $1 17½@1 20; choice feed, $1 12½@1 15; No. 1, $1 10; lower grades, $1@1 05; Black, $1@1 10; Gray, $1 05@1 07½ ℔ ctl.

CORN—Holders have been constantly reducing asking prices with a view of bringing out buyers, but so far the effort has been a failure. We quote: Large Yellow, $1@10; small Yellow, $1 17½@1 20; White, $1 45 ℔ ctl.

CRACKED CORN—Quotable at $26@28 ℔ ton.

A Dish of New P's.

P stands for Pudding, for Peach and for Pear,
And likewise for Poetry and Prose;
The Parrot, the Pigeon that flies in the air,
The Pig with a ring in his nose;
For Paper and Pen, for Printer and Press,
For Physic, and People who sell it;
But when you are sick, to relive your distress
Take at once Pierce's Purgative Pellet.

Oh, yes, indeed! These are the P's for you, poor sick man or woman. Nothing like them for keeping the bowels and stomach regulated and in order—tiny, sugar-coated granules, scarcely larger than mustard seeds. They work gently and thoroughly.

NOT A PIMPLE ON HIM NOW.

Bad with Eczema. Hair all gone. Scalp covered with eruptions. Thought his hair would never grow. Cured by Cuticura Remedies. Hair splendid and no a pimple on him.

I cannot say enough in praise of the CUTICURA REMEDIES. My boy, when one year of age, was so bad with eczema that he lost all of his hair. His scalp was covered with eruptions, which the doctor said was scald head, and that his hair would never grow again. Despairing of a cure from physicians, I began the use of the CUTICURA REMEDIES, and, I am happy to say, with the most perfect success. His hair is now splendid, and there is not a pimple on him. I recommend the CUTICURA REMEDIES to mothers as the most speedy, economical and sure cure for all skin diseases of infants and children, and feel that every mother who has an afflicted child will thank me for so doing.
MRS. M. E. WOODSUM, Norway, Me.

A Fever Sore Eight Years Cured.

I must extend to you the thanks of one of my customers, who has been cured, by using the CUTICURA REMEDIES, of an old sore, caused by a long spell of sickness or fever eight years ago. He was so bad he was fearful he would have to have his leg amputated, but is happy to say he is now entirely well—sound as a dollar. He requests me to use his name, which is H. H. Cason, merchant, of this place.
JOHN V. MINOR, Druggist, Gainsboro, Tenn.

Severe Scalp Disease Cured.

A few weeks ago my wife suffered very much from a cutaneous disease of the scalp, and received no relief from the various remedies she used until she tried CUTICURA. The disease promptly yielded to this treatment, and in a short while she was entirely well. There has been no return of the disease, and CUTICURA ranks No. 1 in our estimation for diseases of the skin. REV. J. PRESSLEY BARRETT, D. D., Raleigh, N. C.

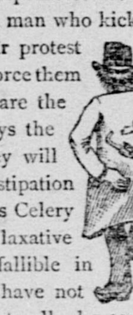
MISCELLANEOUS.

My Poor Back!



That "poor back" is held responsible for more than its share of the sufferings of mankind. If your dog bites a man who kicks it, do you blame the dog? On the same principle the kidneys utter their protest against nervousness, impure blood, and resulting constipation. These force them to do extraordinary work in ridding the system of the poisons which are the result of effete matter retained in the blood. Then the sufferer says the back aches; the kidneys are diseased. "Not yet;" but they will be unless the nerves are strengthened, the blood purified, and the constipation removed. These are the causes of kidney troubles, and Paine's Celery Compound removes them quickly. With its tonic, purifying, and laxative effect, it also strengthens the weak kidneys, making it almost infallible in curing all diseases of the nerves and kidneys. If your hopes of cure have not been realized, try Paine's Celery Compound; it gives perfect health to all who complain of "their poor backs." *Price $1.00.*
